Marian - on the Pioneer River

"Keeping the dream alive"

Building Partner

COBEN CONSTRUCTIONS

Coben Constructions is a local builder operating out of Marian in the Pioneer Valley and is ideally situated for building in Nabilla Riverlinks.

Dallas Coben has been involved in the building industry for nearly 10 years and during this time has gained a wealth of experience from small residential homes to large multi-unit complexes.

Dallas completed his apprenticeship with a small local builder where he worked on a variety of projects around the Mackay region.

Upon early completion of his apprenticeship, Dallas spent 12 months working as a carpenter in Mackay before undertaking a role in Brisbane as a site manager for a large residential builder.

During this time, Dallas built more than 100 residential homes and completed a 35-unit townhouse project.

With all this experience in hand, Dallas returned to Pioneer Valley to start his own building company.

Coben Constructions aims to build top quality homes at affordable prices and in a realistic time frame.

"We can help you choose your land, design your home from scratch or work from your ideas," he said.

"Whatever you need, we are here to take the hassle out of building your new home."

Whether you're building a first home or an investment property, Coben Constructions understands it is all about you and the lifestyle you desire.
