REBETZKE HOMES

Rebetzke Homes has been synonymous with quality construction in Mackay since the 1970s when Kevin Rebetzke and his father, Wally, started building homes. Over the years, the business has grown, at one time building as many as 60 homes a year.

According to Kevin, the success of the business is a result of focusing on quality – a notion backed up by numerous awards.

Rebetzke Homes has won HIA Best Custom Design House (\$350,000 to \$450,000) last year, as well as HIA Home of the Year and Display Home of the Year in 2005, and award in 2000, 2001, and 2003.

At the 2008 HIA awards, Rebetzke Homes won Best Display Home over \$400,000, Best Custom Design Home (\$350,000 to \$400,000), Bathroom Project of the Year and Residential Building Designer of the Year.

Today, Kevin has a strong team working the business on site and in the office, including Custom Design Sales Manager Amber Barnett, Display Home Sales Manager Kaye Shailer, Consultant Margaret-Mary Hall, Construction Manager Steve Ison, Administration Manager Tia Gorrie, and Angela McLean and Melissa Bezzina in administration.

As much as Kevin is still hands-on with the building, the strong team is essential to maintain the highest level of product quality.

"Our main priority is to ensure our client's needs are being met by providing a high quality service with quality workmanship," says Kevin.
